Revocation of Chicago's Charter Pzzles President Mahon of Detroit.

POLITICS IS DISCOURAGED.

Attempt of Socialists to Commit Body to Their Party Will Be Turned Down-No Inter-

national Union.

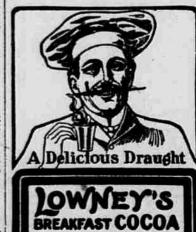

San Francisco, Cal., Nov. 12.—The American Federation of Labor will begin a two WORK OF CICNAL San Francisco, Cal., Nov. 13 .- The Amerweeks' session in this city to-morrow. The session will be open to the public except on the last two days, when officers will be elected. The first train from Chicago, bearing President Gompers and members of the Executive Council, arrived late to-

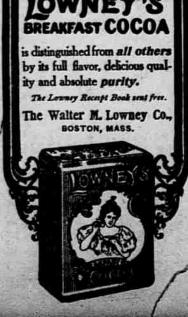

In speaking of the convention, W. D. Mahon of Detroit, president of the Amal gamated Street Railway Employes, said that the labor outlook was decidedly hopeful and that this would be one of the busiest sessions in the history of the federation

Regarding the action of the Executive council in revoking the charter of the Chicago Federation of Labor, Mr. Mahon expressed himself as at a loss to account for the convention's action. He added, how-ever, that the standing of Mr. shardt, delegate from the Chicago body, was no in doubt, but that the delegate would take his place on the floor of the convention.

The questions of wage dispute and trade journals, Mr. Mallon said, were selves and that all that was needed we sensible consideration of the facts. Mr. Mahon spoke in very decided terms against the introduction of politics into against the introduction of politics into the federation. He said that the Socialist delegates to the convention had tried at nearly every meeting to have the federation committed to Socialism, and that they would a rain be turned down, as would be the delegates of other political parties that attempted the same object.

Regarding the formation of an international organization of labor unions, Mr. Mahon said that the only steps in that direction were taken by the longshoremen of the international transportation lines. He added it was a hard enough job to get the labor unions of the United States into line.

# MAIN OF SIGNAL

General Greely Says Undertaking is Most Unique in Annals of Telegraphic Engineering.

WIRELESS SERVICE PRAISED.

Report Asks for Apparatus Along Coast Lines to Permit Communication Between the Army and Navy.

Washington, Nov. 13.-General A. W. Greely, Chief Signal Officer of the United States Army, in his annual report gives an interesting account of the work performed by his corps in establishing an all-American telegraphic system in Alaska, saying the undertaking is unique in the annals of telegraphic ergineering.

The cables used in the Alaskan system would reach from Newfoundland to Ireland, and the land lines from Washington to Texas, there being 2.079 miles of cable, 1,439 miles of land lines and 107 miles of wireless lines. General Greely says the United States has brought Southeastern Alaska, the Yukon Valley and the Behring Straits region into telegraphic nication with the rest of the civil-

ized world. sideration he decided to install material of American manufacture, to be operated by American soldiers and to be laid by Amer-ican ships, except some cable instruments and machinery. A selected force of men has been so trained that to-day the signal corps of the army is competent to operate in war emergency a submarine cable

of any length.

"Repairs in Alaska are maintained." the report says, "by parties stationed at log cabins about forty miles apart, one signal corps repairman, with two assistants from the line of the army and a dog team, being at each cabin. The men meet the terrible condition of hardship and privation uncomplainingly and with a fortitude characteristic of the American soldier."
The report says the Nome wireless station has daily and uninterruptedly transmitted the entire telegraphic business of the seaward peninsula, 5,000 words being exchanged in one afternoon between Safety Harbor and St. Michael.

The signal corps of the army, General Greely says, is now regularly operating the longest wireless section of any commercial system in the world. The annual business of the Seattle-Sitka cable is estimated at 25,000, and during the year there has been spent \$6,355 for Alaskan telegrams handled by the signal corps.

THE PHILIPPINE CABLES.

Speaking of the Philippines, he said the

THE PHILIPPINE CABLES.

Speaking of the Philippines, he said the sixteen most important Islands of the archipelago are now connected by cable, which lines, he adds, are recognized as indispensable both by the military and civil authorities. During the year there has been collected and deposited in the infular treasury of the Philippines telegraph line receipts to the amount of ES.675, there having been sent, including Government business, all told, more than 2,000,000 messages, the net expense being \$25,501.

The report says it is a matter of the utmost importance that signaling apparatus

of suitable character be installed at the more important military defenses along the Atlantic and Pacific Coast to permit of intercommunication between the army and navy. It is strongly urged that steps be taken by the United States to adhere to the international telegraph communication, and that international regulations to govern wireless telegraphy in time of war be adpoted.

**CAPTURE BROTHERS WHO** KILLED SHERIFF DANIEL

Ed and George Jackson Driven From Concealment in Mine by Hunger.

Charleston, W. Va., Nov. 13.-Bd and George Jackson, the two brothers of Montgomery, for whom rewards have been offered by both State and county authorities, surrendered to-day and are now in the county jail at Charleston. The men had been secreted in an abandoned coal mine just outside Montgomery, and were driven to surrender by hunger and cold.

driven to surrender by hunger and cold. Word was sent to Montgomery by a mountaineer, and on arrival of Squire Davis and a Constable the men gave themselves up without a struggle.

Since the shooting of Sheriff Daniel and their subsequent disappearance the men spent the time in the coal mine, secreted from their pursuers and the bloodhounds that were put on their track. During the time they were without food and drink.

The officials took the men around the town of Montgomery and by a roundabout way brought them to Charleston to avoid a riot or lynching, which would have evidently occurred had the citizens of Montgomery discovered that the Jacksons had been apprehended.

There are six urisoners now implicated in the Montgomery shootings, in the Charleston iall. It is not considered as for to hold the hearing of any of them at the present time.

OF CENTRAL TRADES UNION. Former President of Local Branch Says There Is No Foundation for

Report Sent From Chicago

The report from Chicago that the local branch of the American Federation of Labor, the Central Trades and Labor Union was in imminent danger of losing its charter for disobedience and defian orders from the parent body created quite stir in local labor circles because of the fact that there is no known friction be

tween the local branch and the central body. central body that the local council had admitted delegates from the Steamfitters' the great pyramid of Cheops.

admitted delegates from the Steamfitters' Union and orders were issued to unseat them. The order was promptly compiled with and the matter was closed, and there has been no correspondence in the matter for several months.

Richard De Barrey, former president of the local branch, said that there was positively no foundation in fact for the report sent out from Chicago. The local branch is in perfect harmony with the central body and expects to continue such relations, he declared.

It's in the make, says H. A. Hesse, Tailor, 617 Pine,

**EXPLOSION WRECKS** MAYOR'S RESIDENCE

Executive of Virginia, Minn., Excites Ire of Saloonkeepers by Crusade.

Virginia, Minn., Nov. 13.-A terrific explosion occurred in the rear of the resiience of Mayor Fay early to-day and the handsome building is a mass of ruins. No one was injured, but it seems that dynamite was placed in the rear of the house with the intention of killing the Mayor as well as wrecking his dwelling.

For some time the Mayor has waged vigorous warfare upon the violators of the saloon law, and many threats have

ARCHAEOLOGIST CLAIMS NOAH WAS A MILLIONAIRE.

been made against him. There is no clew.

Explorer Says Patriarch Built the Great Pyramid, and Was the World's Greatest King.

REPUBLIC SPECIAL. Indianapolis, Ind., Nov. 13.-K. V. Millard, who is now making his home in this city, has been for several years studying the archaeology of Egypt. For the last year until his recent return to this country, he was engaged in making excava-tions at various places on the Nile, and especially at Gizeh, in the neighborhood of

"I have discovered during the last three years," he said, "just where Noah lived, where the ark was built, and that Noah where the ark was built, and that Noah built the great pyramid of Khufu, known as the pyramid of Gizeh. Noah was the greatest King this world has ever seen. He was the greatest of the Egyptian Pharachs, not excepting Ramees the Great. "Noah was a millionaire. The biolical account of the flood gives no clew as to where Noah lived or where his ship carpenters were at work for 120 years con-

structing the ark. Noah was 500 years old when the flood came. It is evident that he must have been a millionaire and a man of great authority. He built the ark at his own expense. Such a boat in those times would cost more than half a million dollars. He must have been in a position to force vast multitudes to work for him regardless of their interest in him or in his work or of their own personal inclinations. "Noah built the great pyramid during the earlier part of the fourth Egyptian dynasty, and not more than 1,200 years after God had expelled Adam and Eve from the Garden of Eden. If Noah's size and intellectual powers were proportioned, as his age to ours, then in brain and brawn and stature he must have been a giant."

BOAT CAPSIZES IN A LAKE. Two Omaha Hunters Drowned Near O'Neill, Neb.

O'Neill, Neb., Nov. 13.—William Balfour and Iver Johnson, both of Omaha, were drowned in Goese Lake to-day while hunt-ing ducks. The men were in a boat which was too heavily loaded, and when it tipped slightly they were overbalanced and thrown into the water. The bodies were recovered.

To Close Successful Revival. REPUBLIC SPECIAL.

REPUBLIC SPECIAL.

Sparta, Ill., Nov. 13.—The Salvation Army brigade, under the direction of Ensign F. Dimberline of St. Louis, will close a four weeks revival meeting next Wednesday evening. All the churches during the past four weeks have closed their doors and united with the army brigade in their day and evening meetings. As a result of their efforts in this city seventy-nine conversions have been made.
